

LoadNinja

Record and playback scripts in minutes,
and get the most realistic performance data
with thousands of real browsers at scale

Slice and Dice Your Web Application Load Testing Efforts by Over 50%

Record and playback scripts in minutes, not hours

Create and playback complex test scripts immediately without requiring correlation or coding using the InstaPlay Recorder.

Create accurate load tests with real browsers

Generate load using tens of thousands of real browsers to give you the most realistic and accurate performance data of your web applications.

Analyze and diagnose bottlenecks in real time

Visualize browser-based performance data that your developers and testers are used to working with and debug any performance issues in real-time.

Built on Selenium

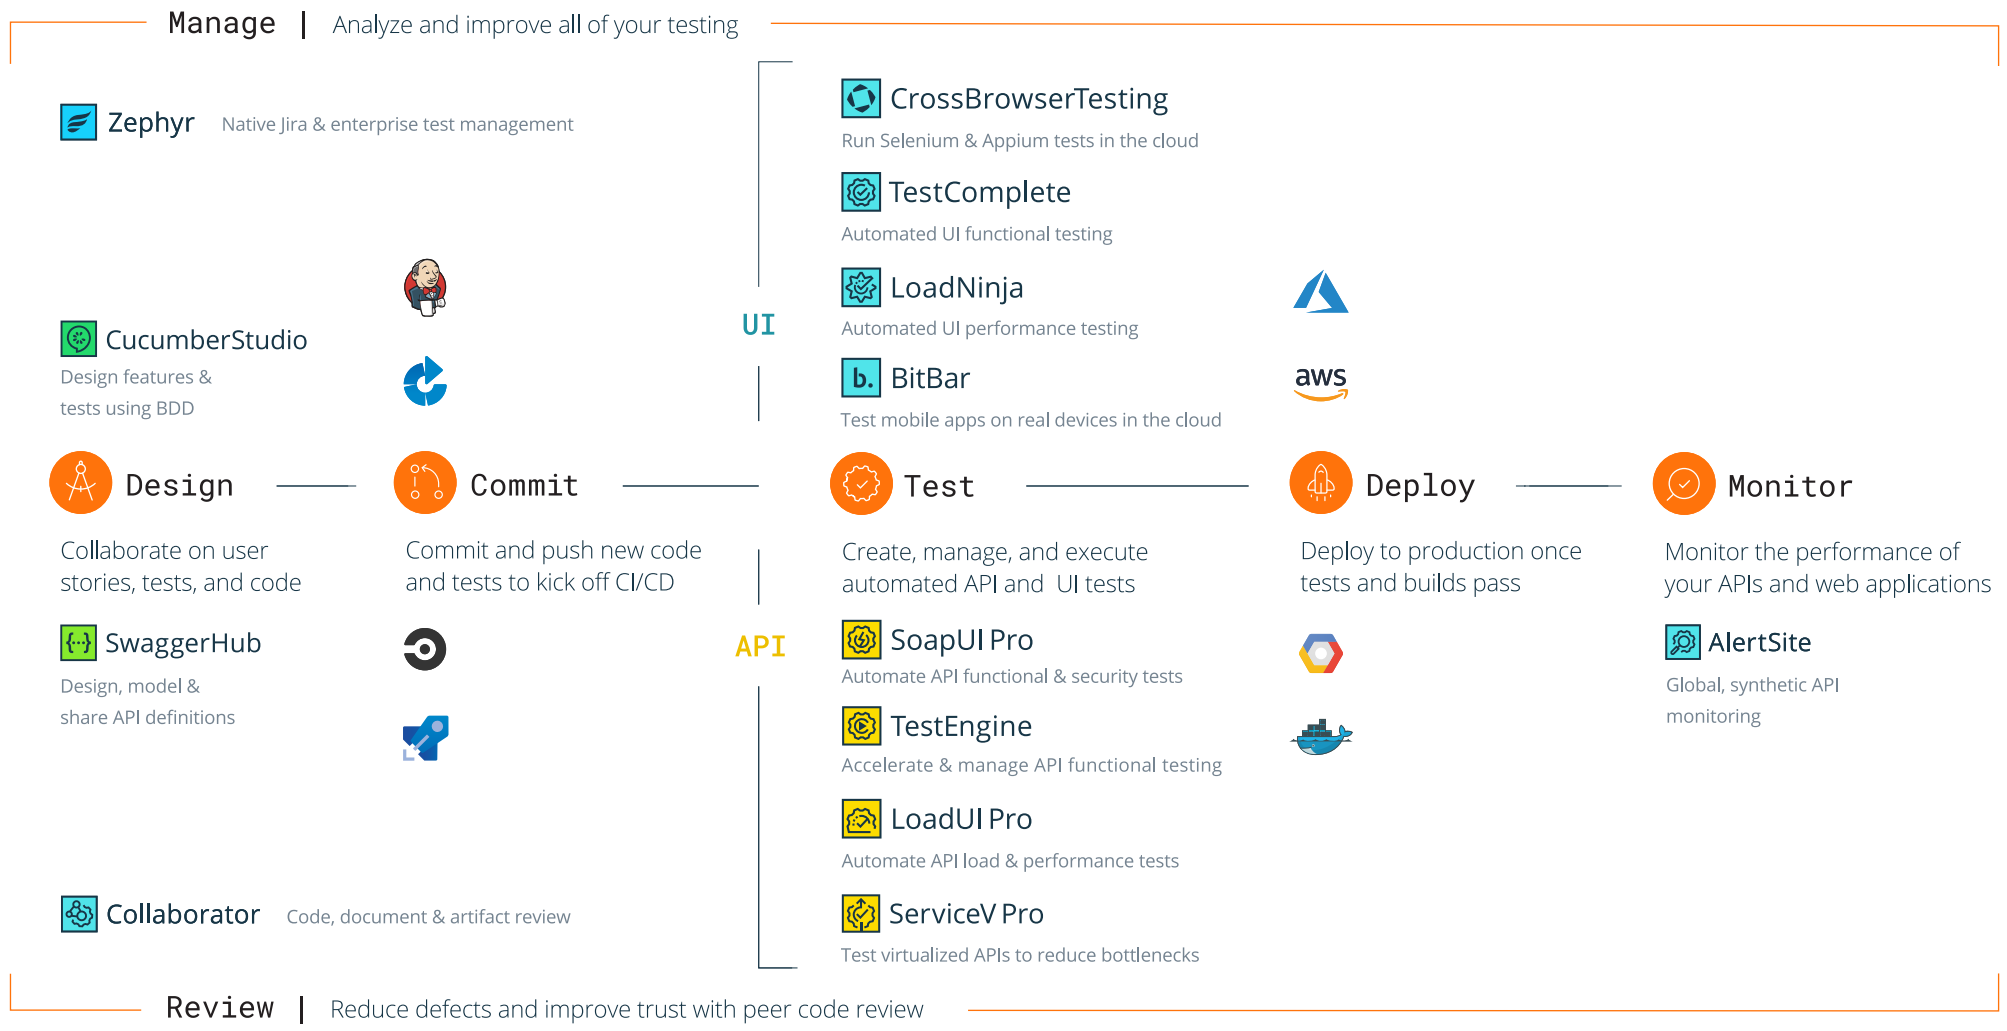

Load tests web applications

Runs on the cloud

Software Development Lifecycle with SmartBear

Agile and DevOps have transformed the rate of software development. To keep up, teams must work and communicate in new ways -- which is where SmartBear comes in. Our tools help streamline your process, so you can release software at the speed your customers expect.
