

# CucumberStudio

## #1 Collaboration platform for BDD

### Deliver quality at the speed of modern business

#### Enable frictionless collaboration

Bridge the gap between business and technical stakeholders by defining acceptance criteria using a shared business terminology.

#### Implement Agile test management

Give all stakeholders visibility into testing activity and results with analytics built for modern agile organizations.

#### Unlock your single source of truth

Seamless Git integration means your BDD documentation is always up to date.

*It's like nitro in your engine! It is full of clear and flexible features to ease agile developments. We have been using [CucumberStudio] in several ways (automation, manual testing...), and it always fulfills our needs.*
